

# CRYBABY TO THE MOON

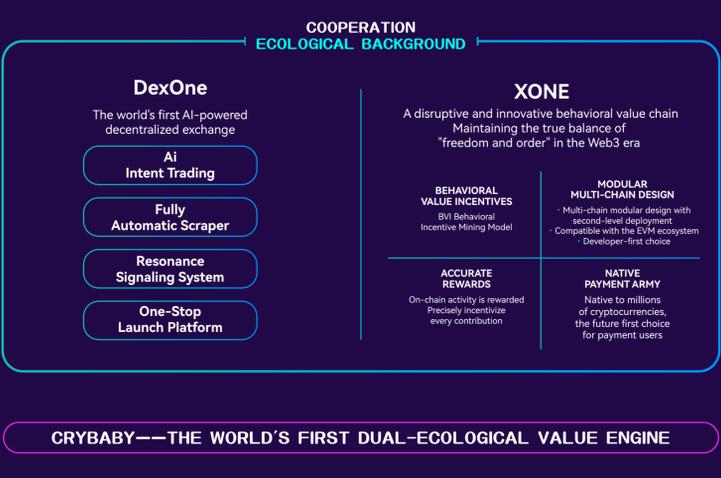

## ONE PICTURE TO UNDERSTAND CBB MODEL ANALYSIS

CBB Wealth Strategy at a Glance

### CRYBABY Energy-accumulating blasting MEME from the world's first trendy toy IP

DARE TO CRY & TAKE RESPONSIBILITY • GLOW ON THE CHAIN

### COOPERATION ECOLOGICAL BACKGROUND

### CRYBABY—THE WORLD'S FIRST DUAL-ECOLOGICAL VALUE ENGINE

#### DEXONE Exchange Launch The first trading ecosystem XONE public chain launch The first application ecosystem

### What is Crybaby (CBB)?

Crybaby (CBB) is a new generation of deflationary DeFi tokens that combines incentive mechanisms such as burning mining, tornado trading model, and blind box lottery to form a complete Web3 growth ecosystem.

|                           |                    |
|---------------------------|--------------------|
| Token Name                | Crybaby            |
| Token Abbreviation        | CBB                |
| Total Issuance            | 1 Billion          |
| Ultimate deflation target | 100 Million Pieces |

### CBB Token distribution ratio

| ASSIGNMENTS                            | PROPORTION | QUANTITY (CBB) |
|--|------------|----------------|
| Treasury Reserves                      | 90%        | 900 Million    |
| IDO Donate                             | 2%         | 20 Million     |
| Swap Pot construction                  | 3%         | 30 Million     |
| Ecosystem Development + DAO Governance | 5%         | 50 Million     |

Deflation is mainly achieved through deflation mining and treasury reserve regulation

### CBB Ecological Evolution Roadmap

### Phase 1 – IDO Donation

#### FAIR LAUNCH • EARLY EXCLUSIVE

**DONATION PRICE** 100USDT/ SHARE IDO donation period has ended (August 1st - August 4th, 2025)

Distribution ratio: 100 USDT = 10,000 CBB

Release rules: 40% of the TGE will be released: 4,000 CBB

The remaining 60%: 2% is released linearly every day (200 pieces/day), and the release is completed in 30 days

Early participants who participated in IDO donations will receive an additional NFT, totaling 2,000 out-of-print NFTs. Holders will enjoy NFT privileges.

Destruction mining accelerated release + 20% dividend from XOC transaction fees + Dexone airdrop identity + DAO governance rights

### Phase 2 – Destruction Mining

#### STATIC REVENUE MODEL

| Lease Amount | Maximum Benefit | Earnings Every 8 Hours | Daily Income |
|--------------|-----------------|------------------------|--------------|
| 100U         | 2x              | 0.4%                   | 1.2%         |
| 500U         | 2.5x            | 0.5%                   | 1.5%         |
| 1000U        | 3x              | 0.6%                   | 1.8%         |

Click the "Start Hashrate" button every 8 hours to generate CBB, which can be traded immediately after receipt.

**Where the tokens go:**

- 70% Directly enter the black hole and be destroyed
- 30% Enter treasury bonds and automatically adjust market prices

It not only achieves destruction but also produces new coins to maintain a healthy ecological cycle

#### Income Calculation 01

Assume that user A participates in the destruction mining of Baby 3, i.e. 1000U :-

Earnings every 8 hours 0.6%

1000U x Earnings every 8 hours 0.6% = 1.8% = 18U daily static income (\$CBB equivalent value)

Earnings every 8 hours 0.6%

\*If the \$CBB price on that day is 0.18, the number of \$CBB tokens obtained is 100

Terminated 3x Return Contract = 1000U x 3x =  $\frac{3000U}{18U \text{ Daily Static Income}}$  = About 167 Days to complete the contract and exit

### DYNAMIC REVENUE MODEL

| SERIES              | REWARD RATIO |
|---------------------|--------------|
| Level 1             | 30%          |
| Level 2 to Level 6  | 10% Each     |
| Level 7 to Level 10 | 5% Each      |

#### Income Calculation 02

Assume that user C participates Baby 3 That is, 1000U package actively recommends friends:-

**Daily Dynamic Earnings**

A \$2.1 + B \$5.22 + C \$9.6 + D \$11.34 + E \$13.86 + F \$9.06 + G \$8.60 + H \$4.77 + I \$5.85 + J \$3.15

= \$73.55U (\$CBB equivalent value)

Terminated 3x Return Contract = 1000U x 3x =  $\frac{3000U}{18U \text{ per day Static Income} + \text{Daily } 73.55U \text{ Dynamic Income}}$  = 91.55U Static + dynamic income

= About 33 Days to complete the contract and exit

### Weekly new promotion rewards Dividend pool

- Dividend mechanism to encourage new promotions:**
- 3% of daily static mining output is extracted and entered into the dividend pool
  - If 150,000 coins are statically produced on the same day, 4,500 coins will enter the dividend pool.
  - Settlement is made Every 7 days and the payment will be automatically made after the countdown is cleared.
- Conditions for obtaining dividend rights:**
- Recommend new users to destroy 100 USDT
  - The more recommendations you make, the greater the dividend weight
  - The dividend rights will not be calculated for reinvestment of old accounts

### NODE DIVIDENDS AWARD

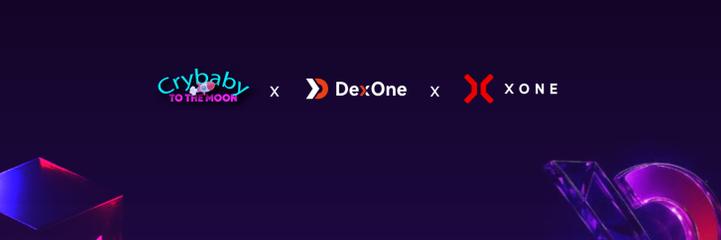

### Exit and Withdrawal Handling fee mechanism

- When the user's static + dynamic power reaches the set exit multiple (2X/2.5X/3X), they will be automatically exited and need to destroy CBB again to open new computing power.
  - When withdrawing dynamic income, you need to select a release period and pay a handling fee (paid in XOC)
- Unlocking period and handling fee ratio —
- 3 DAYS: 25%
  - 10 DAYS: 20%
  - 30 DAYS: 15%
  - 60 DAYS: 10%
  - 90 DAYS: 5%
  - 180 DAYS: 0%

### Phase 3 – Tornado Model + Blind Box Lottery System + Market FOMO Sentiment

#### THREE CORE MECHANISMS

Value Attraction | Powerful Sales | Sticky Incentives

### The value backbone of CBB

### CBB FUTURE DEVELOPMENT

- Community ecology, pledge CBB or produce community ecological tokens to go to DexOne exchange and also use XOC as gas fee to build a hundred community ecology
- CBB+USDT purchases DexOne's NFT mining machine to produce DOC
- Because the unique BVI behavior value incentive of XONE public chain is 60% output through BVI. All ecological transactions and ecological construction of CBB generate G value output XOC, or CBB directly purchase XOC mining machines to produce XOC

### CBB Community Ecosystem Co-construction

CBB + XOC + DOC collaborate to create a top-level WEB3.0 community ecosystem

CRYBABY TO THE MOON X DEXONE X XONE
